Construction / Demolition (C&D) Recycling Program

The State of California requires that all cities in the State divert at least 65% of its waste materials from landfills (AB 939). The City of Stockton could face fines of up to $10,000 a day for not meeting this requirement. Construction & demolition debris account for about 30% of all the waste disposed in landfills. Recycling debris generated from construction & demolition projects is therefore essential for meeting State requirements.

INSTRUCTIONS

1. Either self-haul your waste materials to a recycling facility (see Resource List), or hire a permitted hauler to take your materials to a facility that recycles. Certain materials may also be re-used, like dirt or lumber. You will need to verify that you recycled or re-used 65% or more of the debris you generated with your project.
2. Once your project is complete, submit the Construction / Demolition Recycling Report Form found on the next page within 14 days of project completion.
3. Your report should include the following information:
   a. Permit Number
   b. Job address
   c. Project description
   d. Estimated weight of debris in tons
   e. Where was material taken to
   f. All receipts and / or weight tickets
4. Mail, fax or e-mail the completed report, together with all receipts and weight tickets to:

   City of Stockton – Public Works Department
   Solid Waste & Recycling Division
   22 E. Weber Ave. Room 301
   Stockton, CA 95202
   Fax: (209) 937-7115
   e-mail: sabine.verelst@stocktonca.gov

Failure to comply may result in fines and / or citations
# Construction / Demolition Recycling Report

Complete and submit this form within 14 days of project completion and include your receipts and/or weight tags.

Determine the Weight of Your Debris

How to convert pounds into tons:

To convert pounds to tons, divide the number of pounds by 2000 (1 ton = 2,000 pounds).

Example: 700 pounds (lbs) ÷ 2000 pounds/ton = 0.35 tons

How to convert cubic yards into tons:

Select the type of material recycled/reused from the chart on the right.

Multiply the corresponding number by the total number of cubic yards recycled/reused.

1 cubic yard of asphalt = 0.69 tons (T)

Example: 5 cubic yards (cy) of asphalt = 5 cy x 0.69 tons per cubic yard = 3.45 tons

Salvaged Materials:

Please estimate the quantity of material recycled/reused. Your estimates should be provided in tons.

Example: 25 pounds ÷ 2000 pounds per ton = 0.02 tons

How to calculate the percentage of materials recycled and/or reused:

To determine the percentage of material recycled/reused, divide the number of tons which were recycled/reused by the TOTAL tonnage generated by this job.

\[
\text{DIVERSION RATE} = \frac{\text{Percent Recycled and Reused}}{\text{Recycled tons} + \text{Reused tons} + \text{Disposed tons}} \times 100\%
\]

Example: \[
\frac{1 \text{ ton recycled} + 1 \text{ ton reused}}{1 \text{ ton recycled} + 1 \text{ ton reused} + 2 \text{ tons disposed}} = \frac{2}{4} = 0.5 \text{ (multiply 0.5 by 100 = 100%)}
\]

Demolition - Deconstruction

Deconstruction
Deconstruction is a cost saving alternative to traditional complete demolition by recycling, reusing or donating materials for tax write offs, instead of disposing them in landfills. The advantages of deconstruction may include tax deductions for material donations, cost-savings by reusing materials, preservation of vintage architecture, and avoidance of city fines and permit delays.

Salvaged items in working condition, such as double-pane windows, lighting fixtures, sinks, cabinets, ceiling fans, doors, etc., can be dropped off at:

1. Habitat for Humanity Restore
   4933 West Lane
   Stockton, CA 95210
   (209) 465-5054
   e-mail: mhuber@sjhabitat.org
   www.sjhabitat.org

2. The Reuse People
   9235 San Leandro Street
   Oakland, CA 94603
   (510) 383-1983
   1-888-588-9490
   www.thereusepeople.org

The following company will deconstruct buildings and structures of larger projects, and then recycle, reuse and salvage almost all of the building materials:

Marcan Enterprises
P.O. Box 304,
Moss Beach, CA 94038
(650) 580-2922

House Moving
Moving a house or structure to a separate location is another alternative to demolition. Contact the following house and structure movers in our area:

1. Fisher Bros. House Movers
   2801 E. Lovelace Road, Stockton, CA 95202
   (209) 982-0283

2. Lozano & Delgado, Inc.
   2398 Pheasant Run Circle, Stockton, CA 95207
   (209) 983-0212

   3611 51st Avenue, Sacramento, CA 95823
   (916) 395-2417

3. W.C. Maloney, Inc.
   (209) 942-1129

House Donation
Donating a house structure can yield tax benefits. The following organizations are interested:

ACLC, Inc.
315 N. San Joaquin Street, Stockton, CA 95202
(209) 466-6811

SJ Habitat for Humanity
4933 West Lane, Stockton, CA 95210
(209) 465-5054
