

Stockton Fire Explorers

Post

1888

Stockton Fire Explorer Program was established for young men and women between the ages of 16-20 who are interested in the fire service. The program covers basic fire fighting knowledge and skills as well as physical training. Every participant will have the opportunity to gear up and experience hands on with equipment that fire fighters use to fight fires and help save our community.

If interested in signing up for the Stockton Fire Explorer Program, please contact Post Advisor Captain Brandon Doolan.
