

SAM FANT

Occupation: School Board Trustee

AGE: 28

My Education and Qualifications: Born and Raised in South Stockton, my father was a Stockton Firefighter, and mother a counselor for the Women's Center; I learned that leadership requires sacrifice and courage. With that strong foundation, I knew to help my community; I needed to be engaged in it.

Issues that particularly face South Stockton are access to resources: public safety, jobs/shopping, and activities for our youth. I have been fighting for these things for as long as I can remember. Attending the Sheriff's Academy and the Criminal Justice Academy, I gained the tools to address public safety. My work on the Stockton planning commission, gave me insight as to stimulating business opportunities and jobs for South Stockton. Also, being a high school and Pop Warner football coach, as well as a Board Trustee, I have dedicated my time to building strong youth programs to keep our children engaged in positive outlets that teach them teamwork, responsibility, hard work, and dedication. These experiences have made me ready for the position as your City Council representative.

If you elect me as you City Council representative, I will always put OUR interests in front of special interests. South Stockton deserves an equal share!
