FREE COMMUNITY DEVELOPMENT WORKSHOPS ON MARCH 11

Learn New Automated Permits System

(Stockton, CA) – The City of Stockton's Community Development Department (CDD) recently launched a new automated enterprise system for building, planning and engineering permits. Workshops are scheduled for contractors and members of the community who are interested in learning how to search for information, schedule inspections and check status of inspections online. Choose from one of two workshops scheduled for Friday, March 11, one workshop at noon and another at 5 p.m., at the City of Stockton Permit Center, 345 N. El Dorado Street. All are invited to participate.

The new state-of-the-art permitting system streamlines permitting, inspections, and plan review. Customers can remotely access information about permits at any time of day, check status, research information about a project/property, and schedule inspections via the web and Smart devices.

To register, please e-mail Makinde.Falade@stocktonca.gov or call (209) 937-7567.
