Stockton Seeking Proposals for Low-barrier Shelter Facilities to Serve Unsheltered Homeless Persons

STOCKTON, Calif. – The City of Stockton is soliciting concept proposals for the development of facilities that will serve the needs of unsheltered homeless persons in our community. This funding opportunity is for a minimum of \$6.5 million in capital costs associated with site acquisition and project development. Facilities developed will be used to provide programs and services to address the basic and safety needs of those served and, as a low-barrier shelter, will not require separation from pets, partners, and possessions. Long range ongoing operational support should be considered by those proposing and will become available, separately, at a future date. Completed proposals must be received by the City of Stockton by the project deadline, Monday, April 18, 2022, noon (12:00 p.m.).

To be considered for this funding opportunity, applications submitted must address and meet all requirements in the Notice of Request for Project Concepts and Funding Availability (NOFA) for Low Barrier Shelter Beds by the deadline. This document is available at www.stocktonca.gov/housing.

The City of Stockton will accept and review all proposals that meet the program guidelines and requirements. Project concepts identified by the City of Stockton as suitable will be presented to the City Council for consideration and conditional approval and
