## **Stockton Seeking Proposals for Low Barrier Shelter Facilities or Temporary Emergency Housing to Serve Unsheltered Homeless Persons**

STOCKTON, Calif. – The City of Stockton is re-releasing a Notice of Request for Project Concepts and Funding Availability (NOFA) for the expansion of facilities that will serve the needs of unsheltered homeless persons in our community. The funding opportunity for Low Barrier Shelter Beds or Temporary Emergency Housing Units is for an estimated \$6.5 million in capital costs associated with project development and \$3.6 million in operating costs, for expenditures through June 2026. Facilities developed will be used to provide programs and services to address the basic needs and safety needs of those served and, as a low-barrier shelter, will not require sobriety, or separation from pets, partners, and possessions. Completed proposals must be received by the City of Stockton by the project deadline, Thursday, January 19, 2023, at 5:00 p.m.

To be considered for this funding opportunity, applications submitted must address and meet all requirements in the NOFA for Low-Barrier Shelter Beds or Temporary Emergency Housing. This document is available at [www.stocktonca.gov/housing](http://www.stocktonca.gov/housing).

The City of Stockton will accept and review all proposals that meet the program guidelines and requirements. Project concepts identified by the City of Stockton as suitable will be presented to City Council for consideration and conditional approval and
